EMRT Extended Minerals Reporting Template Cobalt/Mica Sourcing Declaration & Certificate of Compliance:

Updated September 22, 2025 EMRT Version 2.0 4/25/25

For the following equipment:

Product Name: **RR9LE3000LCPCIM(R6B)**
Power Supplies, adaptors, transformers, Batteries, cables and all part numbers provided by GlobTek, Inc.

(Manufacturer Name) (Manufacturer Address)

1. GlobTek, Inc. USA 186 Veterans Drive, Northvale, NJ USA 07647

The EMRT 2.0 is to be used for Cobalt, Mica, Copper, Natural Graphite, Lithium and Nickel supplier use reporting.

On 4/25/25, the RMI revised the requirements to version 2.0
This added 4 minerals and made updates to the smelter list.

GlobTek, Inc.is committed to ensure that all minerals contained in our products are sourced with due respect for human rights and avoid contributing to conflict.

GlobTek Inc. fully supports and hereby certifies conformance to the requirements of the Responsible Minerals Initiative (RMI) program on mineral source reporting sourcing in mapping the GlobTek Supply Change using the EMRT.
The reporting template is provided to GlobTek's supplier to ascertain if the items provided to GlobTek contains the listed minerals and then their sourcing of those minerals to responsible smelters.
GlobTek asks our suppliers to pass this information request down their supply change in order to identify the smelter in use and report back to GlobTek.

GlobTek communicates to our Suppliers our expectations in compliance.
GlobTek uses this supplier feedback to identify and address any High Risks so we can work with our suppliers to address the issue.

GlobTek Inc. is conforming and will continue to conform to the requirements of RMI EMRT as new amendments and updates are released.

GlobTek, Inc. certifies our support in the concerns over social and environmental impacts of mineral extraction, including child labor and unsafe working conditions in artisanal mineral mining.

We will continue to work with our suppliers to ensure this and ensure our suppliers have the same goals in responsible mineral sourcing.
