The symbol on the left is affixed to products that pass RoHS 2 compliance for all materials, while the symbol on the right is affixed to products containing substances above RoHS limits, and displaying the Environment Use Period (in this example 50 years).

China-RoHS Conform
Substances not above limit

Environmental use period for product containing restricted
substances above the prescribed limit.

This period starts on the date of manufacture and ensures that the products "will not leak or mutate suddenly under normal operating conditions and will not result in serious environmental pollution or cause serious bodily injury to the user or damage to their assets during the normal use by the user" A hazardous substance table will also be provided if the part is out of compliance.

GlobTek certifies that the parts marked with RoHS Green Leaf logo, contains materials which meet or exceed all specifications of China SJ/T 11363-2014.

This C of C does not exceed general terms and conditions of the sale unless specified below.

Thank you for your business.
